- Metering and monitoring
- Oil tender and bill validation
- Student energy efficiency campaigns
- Joint branding exercise to promote energy saving
- Work experience and energy careers day

**Milton Abbey School is an independent school for both day and boarding pupils in the village of Milton Abbas in Dorset. The school's facilities include a gym, swimming pool, shooting range, golf course, a 320-seat theatre, art department and design block, an AstroTurf pitch, a 15th-century dining hall and an Abbey chapel.**

Utilitywise has offered a complete turnkey approach that started with an Initial Scoping Study. Once the project scope was agreed Utilitywise sourced the finance, tendered for the best suppliers of equipment and has now begun to implement the project. The technology and solutions involved is wide ranging and includes;

- Project management and implementation

- Project finance
- Biomass boiler
- Complete LED lighting and controls project
- Pool cover
- Insulation
- Metering and monitoring
- Oil tender and bill validation
- Student energy efficiency campaigns
- Joint branding exercise to promote energy saving
- Work experience and energy careers day

**“WE ARE ENJOYING WORKING ALONGSIDE [UTILITYWISE] AND THE BENEFITS HAVE BEEN VARIED, FROM COST SAVINGS AND EFFICIENCY GAINS TO PRACTICAL LINKS TO OUR STUDENTS EDUCATION.”**

Milton Abbey School
